## EMPLOYMENT HISTORY

### Senior Software Developer

Mi Auto en Linea | June 2023 - Present

I help build miautoenlinea.mx, an online vehicle buying and selling portal focused on authorized dealerships.

Technologies: VueJS, Nuxt, Typescript, Python, Django, PostgreSQL

### Senior Software Developer

SpinupWP | June 2021 - May 2023

I was a part of the dev team at SpinupWP, a modern cloud server control panel designed to manage WordPress sites. **One of my main achievements** was initiating the migration from Ansible scripts to Bash scripts, which reduced the completion time for certain tasks running on customers' servers.

Technologies: PHP, Laravel, VueJS, MySQL, Bash scripting, Sysadmin

### Software Developer

Inweb | Dec 2013 - Jun 2021

I built custom software for companies such as Mars, Televisa, and Arkansas University. **After 5 years, I was promoted to the role of lead software developer.**

Technologies: Python, Django, VueJS, ReactJS, Laravel, MySQL, .

### Software Developer

Mood Lab | Apr 2011 - Dec 2013

I was responsible for planning and developing medium to large web applications and APIs intended for consumption by mobile applications.

Technologies: C#, JavaScript, MySQL, CodeIgniter,

### Software Developer

Medisoft | Aug 2009 - March 2011

I was part of the team responsible for developing an LMS for the pharmaceutical industry.

Technologies: PHP, CodeIgniter, MySQL.
